

CHAMP®
Hang Man Paint Stand

SKU: 1101421382

A fully adjustable paint stand built to give collision repair professionals better access, positioning and control.

The *CHAMP*® Hang Man Paint Stand makes spraying and touching up automotive parts easier by letting technicians position panels exactly where they need them.

- **Fully Adjustable Design** Configure the stand to accommodate a wide variety of automotive parts and painting applications.
- **Handles Large Body Panels** Ideal for doors, hoods, tailgates and fenders, making it a versatile addition to any refinishing department.
- **Vertical Panel Positioning** Mount panels vertically to simplify color matching and help technicians achieve a more consistent finish.
- **Adjustable Working Height** Height adjusts from 66” to 78”, allowing technicians to find a comfortable working position.
- **Easy Shop Mobility** Four 4″ casters make it easy to move the stand where it’s needed; two casters lock to help keep it securely positioned during use.
- **Large Working Footprint** Measures 84″L × 79″W x 30″D, providing a stable platform for a wide range of automotive panels.
- **Made in the USA** Built for professional collision repair environments.

The smarter way to position paint panels
