CHAMP®
Door/Bumper Handler

SKU: 1203077

Portable Door & Bumper Handler

The *CHAMP*® Door/Bumper Handler is built to make heavy, awkward parts easier to position, lift and install while helping protect valuable vehicle components from accidental drops and damage. Mount or remove doors, panels and bumpers with confidence—without waiting for an extra set of hands.

- **One-Person Door Install and Removal** Eliminate the need for a second technician when mounting doors and panels. The handler supports car parts while you focus on proper positioning and installation.
- **Helps Prevent Costly Damage** Provides stable support while handling doors, helping reduce the risk of dropped parts and potential damage to door lips and components.
- **Heavy-Duty 825-Lb. Capacity** gives technicians confidence when working with heavy vehicle components.
- **18" Lift Range** makes it easier to bring doors and bumpers to the proper working height for installation.
- **Durable Steel Construction** the sturdy steel construction provides dependable support job after job.
- **Long-Lasting Screw Jack** The heavy-duty screw jack delivers controlled lifting and is designed for long-term durability, helping provide reliable performance throughout the life of the handler.

Stop struggling with heavy doors and awkward vehicle panels.
